

ReliaG® Pro Series

MODEL 1028

Belt or Chain Drive
Garage Door Opener

ALWAYS AT YOUR COMMAND

Highlights

- **Durable Performance** – The DC motor provides quiet, yet strong performance with an opening speed of 6.5" per second for residential sectional garage doors up to 8' high.
- **GenieSense™ Monitoring** – Automatic force profiling and diagnostic technology improves safety by stopping operation when significant changes occur
- **Dependability** – The quality built into a Model 1028 is backed by a 5-year Limited Warranty[†] for the motor and integrated gearbox and 15 years for the belt drive rail (5 years for the chain drive rail).
- **Smart Illumination Lighting** – The light bulb is positioned toward the inside of the garage instead of on the door for light where you need it most.

THE GENIE STORY: Genie has a rich history in developing garage door openers that feature reliability, strength, safety, security, and convenience. Since 1954, Genie has produced millions of openers that serve millions of satisfied homeowners every day of every year. Shouldn't you have one in your garage? Genie — Always at Your Command!

[†] Limited non-transferable warranty. See Operation & Maintenance manual for details.

MODEL 1028

Standard Equipment & Warranty

SAFETY BEAMS	WALL BUTTON	ONE-BUTTON REMOTE	MOTOR AND GEARBOX*	RAIL ¹ (BELT DRIVE)	RAIL ¹ (CHAIN DRIVE)	PARTS & ACCESSORIES*

Features & Benefits

POWER & CONTROL

DC Motor Technology – The quiet DC motor offers strength and reliability.

C-Channel Rail – Strong rail design helps promote durability and safety. Also conceals the belt (or chain) for better appearance.

Belt or Chain Drive – Choose the belt drive option for quieter operation or chain drive for economical value.

SAFETY

Safe-T-Beam® Non-Contact Reversing System – When objects pass through the infrared beam, the garage door automatically stops closing and reverses open without having to make physical contact with the door.

SECURITY

Intellicode® Access Security System – Genie's superior encryption technology prevents piracy of the radio signal that operates your door by always selecting a new code from billions of combinations each time the opener is operated.

CONVENIENCE

Smart Illumination – Light bulb is positioned toward inside of garage instead of toward door for light where it's needed most. Light stays on for 4 minutes once opener is activated for ample time to get into house. Opener features standard lighting with (1) bulb capability. Genie branded LED light bulb recommended. (If incandescent bulb used, 60 watt max). See Genie LED bulb this page for additional details.

Auto Seek Dual Frequency – The internal system automatically uses either the 315 or 390 MHz frequency produced by the remote control or keypad to help ensure the opener responds regardless of potential nearby frequency interference, such as military base equipment.

Pre-Programmed Remote – Ready to use out-of-the-box with simple steps to change the programming if so desired.

HomeLink® & Car2U® Compatible – Works with current and ALL previous versions of HomeLink® or Car2U®. No additional external repeater kit or compatibility bridge needed.

◊ Limited non-transferable warranty. See Operation & Maintenance manual for details.

Convenience Options

Genie® Garage Door Opener LED Bulb - NEW!

Common LED and CFL bulbs can emit interference to limit the range of garage door remotes. Incandescent light bulbs, which are being phased out due to energy inefficiency, can have their lives shortened by vibration associated with opener operation. The Genie LED bulb solves these and other problems to ensure the garage door opener light doesn't leave your garage in the dark!

Aladdin Connect™ Garage Door Controller

Gives ability to remotely monitor and change the position of your garage door from almost any smart device. The controller provides security and convenience. You'll be able to know when someone is operating your door, or close it if your door status shows you left it open. You can even open it for a relative, babysitter, delivery, or repair person. Up to 3 doors can be monitored and 20 users added with one system.

Wireless Keypad

Mounts outside your door to give you keypad code access to your garage. Back-lit keypad lets you easily see the numbers. Controls up to 3 openers.

Choose a color for the flip-up cover that best complements your home.

3-Button Remote

This remote allows you to operate up to 3 openers. It comes with a visor clip and can be used with a key ring.

Multi-Function Wall Console

Featuring large push buttons for easy operation, this wall console also has Sure-Lock™ button to disable the remotes and keypad for extra security at night or while away from home.

GenieMaster® Remote

This versatile remote control works with all Genie gated community receivers as well as most Genie openers ever made, including Genie 390 MHz remotes on 9-switch, 12-switch, and 9-switch trinary formats. It also is compatible with those models that have Auto Seek Dual Frequency.

6' Power Cord (Model 1028H)

Upgrade from standard 4' power cord.
